## S.W.R. Drainage Systems

Zenith SWR (Sanitary) systems are far more superior to conventional cast iron & asbestos cement drainage systems as a upvc product they provide a valuable life long trouble free (hassle free) performance.

- **Installation:** these PVC pipes are easy to install & less time consuming than cast iron or asbestos cement systems & with rubber rings which ensures a leak proof seal.
- **Light Weight:** due light in wt. these pipes are easy to transport & easy in handling and installation.
- **High impact strength:** these pipes have high impact strength and can withstand rough and robust handling and not prone to mechanical damages in handling and transportation.
- **High corrosion resistance:** These upvc pipes are non-corrosion in nature and immune to chemical, electrolytic and galvanic corrosion.
- **High chemical resistance:** resistance to acids, alkalis, oils and domestic effluents.
- **Self-extinguishing properties:** PVC is itself extinguishing material therefore it eliminates the need for fire resistant coatings and no special precautions are necessary during installation.
- **Smoother inner dia:** due to its smooth inside surface it gives better flow characteristics than AC, CI and GI Pipes.
- **Maintenance friendly:** PVC pipes due to the smooth inside dia and door caps there to give a ease in inspection and are effectively cleanable.
- **Economical:** PVC pipes are most cost effective, as they are cheap than all kinds of pipes. Besides they also offer economy in handling, transportation and installation.
- **Durable:** No scale formation, UV stabilized. No effect of weather and sunrays.

Quality standard set for zenith swr (sanitary) pipes and fittings are enormous as they are designed to withstand all kinds of weather from blaring heat of Thar Desert to freezing cold of Ladakh.

Zenith SWR (Sanitary) drainage systems conform to BIS (Bureau of Indian Standard) IS 4985/13592 for pipes and IS: 5382:1985 for rubber rings.

Zenith offers complete range from Cowl to Shoe bend in 75mm and 110 mm in all combinations.

PIPES, TRAPS, DOOR BENDS, BENDS, COWLS, DOOR "Y", COUPLERS, PIPECLIPS, CROSSBENDS, TEE, REDUCERS, "Y" SINGLE/ DOUBLE

\* Zenith SWR (Sanitary) pipes are also available in 90mm & 160mm Dia.
